## Sri Lankan Bible School

The Bible School was held approximately 40kms from Negumbo in the beautiful grounds of the Madampe Camp Site. Approximately 90 people including Bre & Sis, Young People and Interested Friends attended the four day camp which ran from Thursday evening 22nd Dec to Monday afternoon 26th Dec.

During the camp Bro Rodney Janssen of the Mildura Ecclesia led the studies on the Letters to the Seven Ecclesia's. These studies were also supported by discussion groups which the interested friends particularly enjoyed - they had lots of questions! Also during the studies the Sunday School was led by Sis Linda Janssen and Sis Liz van der Meulen who taught the children their lessons and Sunday Schools songs for the Song and Praise evening.

The weather was not hot during this time but it was extremely humid without any relief. On the Friday afternoon a cricket match - Aust V Sri Lanka was held & everyone got into the spirit of the activity - lots of rivalry with the Aussies coming out the winners!

Those who attended the camp were thrilled by the encouraging studies and expressed much happiness at the opportunity to have Bre & Sis come and meet with them from Australia. We are sure that we received more than we were able to give as we enjoyed the sweet fellowship of our Bre & Sis there.

## Devastating Floods in Mekong Delta

A form of the brethren's livelihood is prawn farming in ponds like the picture shows. However the floods changed the water's salt content and the prawns failed to grow and became valueless. The pond will need to be emptied, the base sealed and correct salt water brought in before new eggs can be set for a new crop.

The rice crop has died due to salt water inundation.

In this picture a brother can be seen digging up the invading creatures brought in by the floods in a salt farm basin.
